

**REBUILDING HAITI TOGETHER-****MARCH 2016 TRIP REPORT**

April 12, 2016

Dear Brethren of the Body of Christ,

We are pleased to report that our March 2016 work trips to begin vertical construction at the Delmas 9 construction site were a tremendous success!

The daunting task of taking 25 tons of steel lying on the concrete slab and having it all in its place in 7 days was quite overwhelming. The fact that a second crew of masons would arrive the next day and would have to place over 4,000 CMU blocks over the next 7 days added to the challenge. However, with the help of the Lord and the hard work of the brethren of the Body of Christ, the work was completed in 2 weeks!

Special thanks to all those who have participated so far in the work trips. We are off to a great start and are looking forward to many exciting trips in the future. The men returned with wonderful testimonies of feeling blessed to participate in such a momentous project.

As we look towards the 50<sup>th</sup> Anniversary of Bro. Nick Gruick first coming to Haiti, we are excited with the prospect that we have the privilege of participating in the history and future of such a beloved work in the Body of Christ. Your prayers and continued support are greatly appreciated!

In His Love,
