

REBUILDING HAITI TOGETHER-**Spring 2019 Update**

March 20, 2019

Dear RBHT Team Members,

As I write you this letter we are preparing to leave tomorrow for a trip to Haiti from 3-20-19 to 4-3-19.

We are especially excited about this trip because Bro. George Silva from Sri Lanka will be travelling with us to experience the Body of Christ in Haiti. I believe you met him in Houston. He has been participating in daily Bible studies and is really receiving a great vision of the Body of Christ.

This two week trip to Haiti will be filled with a lot of activities: (1) 3 day Fellowship Meeting in Jacmel, (2) monthly Ministers Meeting at Delmas #9, (3) a visit to check on the work in Roysac and (4) a trip to Pernal to lay out the foundation for a new water reservoir. As you will see in the following update, your faithful support has been a catalyst in making these continued projects a reality.

If the Lord lays it on your heart to contribute to these projects, it will be greatly appreciated.

In His Love,

**IN THIS ISSUE:***Bon Repos- Bro. Yves Regala**Ganthier- Bro. Simeon**Roysac- construction update**Pernal- water reservoir**Artibonite- new plantation**Prayer Requests***Bon Repos-**

The church in Bon Repos has recently been completed. Bro. Yves Regala and the saints there are so excited about occupying their new building. Our next shipment will include a 50 kva, 175 amp generator that was donated to the church in Bon Repos.

Ganthier-

We are currently working to assist Bro. Simeon and the church in Ganthier with the installation of a pressurized water system which will help them establish a bank of restrooms for the church. This will be a great addition to their new facility and promote a sanitary environment for years to come. It was exactly one year ago that 32 youth and parents in our assembly went to Haiti for 3 weeks. They had the privilege of painting the entire church in Ganthier over 2 days.

Roysac-

After deciding not to purchase additional medical equipment for the clinic at the Delmas #9 church, the remaining funds were used to put a new roof on the church under construction there. The project is moving on quickly and we look forward to checking on its progress in the coming week.

Pernal-

The church in Pernal is currently working to build a new 20,000 gallon reservoir on their property adjacent to their orphanage. This concrete reservoir will supply water not only for their orphanage, but school and church. This will be a welcome addition during the years

Picture of land that is being prepped to build concrete forms for a new reservoir this month.

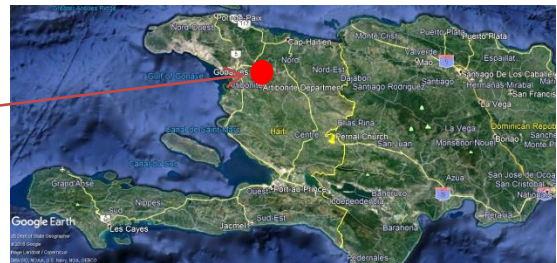

that they host the national convention every 2-3 years when approximately 10,000 saints of God arrive to worship God on the mountain. One of our main objectives for these water initiatives is to provide pressurized water for better sanitation in restrooms and washrooms.

Artibonite-

Another effort to benefit the entire Body of Christ in Haiti is to help them become more self-sufficient. We were

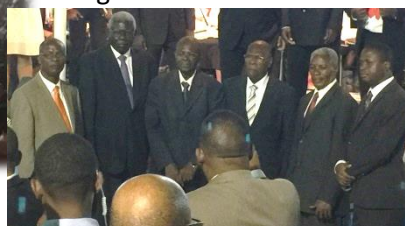

blessed to receive news that a donor has donated (2)- 8 inch diesel water pumps for the purpose of establishing two plantain or banana plantations. These pumps were completely serviced before being donated and will provide enough volume of water from the adjacent river to trench irrigate approximately 20+ acres of land. Two spools of 8 inch flat irrigation pipe were also donated with the capability of supplying water for up to ¾ of a mile away. What a blessing this will be to work of God in Haiti!

[PRAYER REQUESTS]-

Please continue you to pray for Bro. Preval and Simeon. These 2 men have been used mightily by the Lord through the years to establish and nurture many, many churches. They are now struggling in their latter years with health issues. Bro. Preval has completed his surgeries but continues to need prayer. Bro. Simeon completed a

very extensive gastric surgery and remains in the Dominican Republic while he recovers. Thank you for your persistent prayers.
